

LIFEGUARD CHAIRS

SERIOUS EQUIPMENT • SERIOUS FUN • ACCESS FOR ALL

LIFEGUARD CHAIRS

DESIGNED FOR SAFETY

S.R.Smith offers a wide range of lifeguard stands, from traditional models to the new Sentry™ series, which features a stylish, outdoor furniture look. Portable and fixed models are available in a variety of heights and rotation ability. Each S.R.Smith lifeguard stand is designed to meet the logistical and safety needs of facilities from small hotel pools to large aquatic facilities.

COMPLIANCE MATTERS

The Occupational Health and Safety Administration (OSHA) has outlined minimum requirements for lifeguard chairs in public pools. To comply with OSHA, a lifeguard stand must have rails to protect against falls and sufficient room to ascend and descend from the chair.

SPECIFYING MADE EASY

S.R.Smith lifeguard chairs are easy to add to proposals, with downloadable specifications and CAD available on our website.
