- Removes Dirt, Scale, Oils & More

KEEP OUT OF REACH OF CHILDREN
DANGER

CAUSES SERIOUS EYE IRRITATION
See first aid statement and other
precautions on back panel.

NET CONTENTS 1 QUART (946 ml)

FILTER CLEANER

For use on pool and spa cartridges and D.E. filter elements.

DIRECTIONS FOR USE

Remove D.E. or cartridge filter element from filter casing. Rinse off loose material on element. Thoroughly saturate filter element with water. Spray **POOL SEASON® Spray & Rinse Filter Cleaner** over total surface area of filter element for maximum effect. Rinse element **THOROUGHLY** with hose (foaming in pool may occur if filter element is not completely rinsed). Especially heavy soiled filter elements may need second application. Removes scale, minerals, dead algae, body oils and other debris.

This product is highly concentrated. Spot test an inconspicuous area of the pool finish before full use to ensure no adverse reactions. This product is not recommended for deteriorating or older pool finishes.

DANGER

KEEP OUT OF REACH OF CHILDREN. Contains Disodium Trioxosilicate. Causes serious eye irritation. Avoid skin and eye contact. Never use this product with other chemicals. On pools with erosion type chlorinators, always close inlet valve to chlorinator or remove chlorine canister from unit when using filter cleaner chemicals.

FIRST AID

IF IN EYES: Immediately flush eyes with plenty of water for at least 15 minutes. Do not apply neutralizing agents. Remove contact lenses, if present, after 1-2 minutes of rinsing. Cold water may be used. Get medical attention immediately.

IF ON SKIN: Flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Cover the irritated skin with an emollient. Cold water may be used. Wash clothing before reuse. Thoroughly clean shoes before reuse. If irritation persists, seek medical attention.

IF SWALLOWED: Rinse out mouth and then drink plenty of water. Do not induce vomiting unless directed to do so by medical professional. If large quantities of this material are swallowed, call a physician immediately.

IF INHALED: Supply fresh air; consult a doctor in case of complaints. Provide oxygen treatment if affected person has difficulty breathing. In case of irregular breathing or respiratory arrest, provide artificial respiration.

In Case of Emergency, Call: 1-800-255-3924
