Always use a soft bristle brush or cloth when cleaning your Ledge Lounger furniture. For routine cleaning, just use water.

For a deeper clean, remove from the pool and use a mild household cleaner or a Magic Eraser.

Depending on the calcium levels of your pool, you may notice a white powder like coating develop on your furniture. If this occurs, we recommend cleaning it with CLR Calcium, Lime and Rust Remover.

CLEANING YOUR FABRIC

Always use a soft terry cloth for cleaning the fabric on your Ledge Lounger fabric products, and always wipe in small circular motions.

Start by brushing off any loose dirt. For general cleaning, just use water.

For a deeper clean or spot cleaning, use a mix of mild detergent and water. Apply to the spot, then wipe in small circular motions with a dry terry cloth. Repeat until desired cleanliness is achieved.

The fabric used on Ledge Lounger products is high quality, outdoor fabric. It is designed for use in an aquatic environment and okay to get wet.

However, it is not recommended that your fabrics be submerged for an extended period of time. If you submerge your products, allow them to air dry completely, immediately after use.
