- Controls Calcium Scale Build Up on Pool Surfaces, Plumbing and Equipment

KEEP OUT OF REACH OF CHILDREN DANGER

Causes severe skin burns and eye damage.
May be harmful if swallowed.

Read all Precautionary Statements and
First Aid on back panel before use.

NET CONTENTS 1 QUART (946 ml)

This product is a unique formulation for removing and controlling scale discoloration and staining in swimming pools. Regular application of this product as a part of your swimming pool's maintenance program will help keep the water, the pool and the plumbing in excellent condition.

This product reduces the amount of chlorine needed to keep pool water clean. By forming inert complexes with ions which remove chlorine, it leaves more chlorine free to sanitize the pool water.

This product keeps filters functioning longer by preventing scale formation which leads to channeling or complete stoppage of sand and diatomaceous earth filters. Less frequent back washing is necessary.

This product prevents:

- Mineral deposits on pool surfaces
- Discoloration of the pool water
- Scum formation on pool walls and gutters
- Corrosion of pool equipment and accessories
- Rust stains and filter clogs

This product is a must for heated pools. It increases the life and efficiency of heaters by preventing the buildup of calcium and magnesium on the heating element.

This product is compatible with other pool chemicals. It is specially formulated to be used with the entire line of quality swimming pool products.

DIRECTIONS

This product should be added when pool is first filled, or at the beginning of the swimming pool season. Maintenance doses should be added once a week throughout the swimming season. Wear goggles and rubber gloves when using this product.

For the initial treatment, add 1 quart of this product per 10,000 gallons of water. The monthly maintenance dose is 16 fl. oz. of the product per 10,000 gallons of water, once a month.

Add the required amount directly to the pool water in front of a return or around the edges of the pool. It is advisable to add this product at least one day prior to adding algicide or chlorine.

PRECAUTIONARY STATEMENTS: DANGER. Contains Phosphonic Acid. Corrosive to eyes. May irritate skin. Avoid contact with eyes, skin and clothing. Wear safety glasses or goggles and chemical-resistant gloves while handling this product. Wash hands thoroughly after handling. Remove and wash contaminated clothing before reuse. Do not mix with other chemicals.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

IN CASE OF EMERGENCY CALL: 1-800-255-3924

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

STORAGE AND DISPOSAL

Keep product in its original, tightly closed container when not in use. Use entire contents, then triple rinse and offer for recycling, or dispose in accordance with state and local regulations. Do not reuse empty container.

Notice: Manufacturer's and seller's guarantees shall be limited to the terms of the label. Neither shall be held responsible for any personal injury, or property damage, or other loss resulting from the handling, storage, and use of this product not in strict accordance with directions on the label.
