

SUPER WATER CLARIFIER

- Super Concentrated Clarifier Clears Dull and Cloudy Water
- Enhances Filter Efficiency
- Also Effective In Salt Pools

**1 Fluid Ounce
Treats 5,000 Gallons
of Pool Water**

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

May cause mild eye and skin Irritation.
Read all Precautionary Statements and
First Aid on back panel before use.

NET CONTENTS 1 QUART (946 ml)

PRECAUTIONARY STATEMENTS

CAUTION. Contains poly(diallyldimethylammonium chloride). May cause mild eye and skin irritation. Avoid contact with eyes, skin, and clothing. Do not taste or swallow. Wash hands thoroughly after handling. Use only in swimming pools. Add only when no swimmers are present. Do not mix with other chemicals. Do not pre-dissolve or add water to this product.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-255-3924

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Super Water Clarifier is a super-concentrated pool water clarifier that enhances filter efficiency. Adequate levels of sanitizer and algacide must be present in water to control any bacteria and algae. Addition of Super Water Clarifier to pool water helps small suspended particles to combine into larger masses so that they can be removed by normal filtration. This product works with all types of filters. Super Water Clarifier is not affected by chemicals commonly used in swimming pools or by pH.

DIRECTIONS FOR USE:

WEEKLY MAINTENANCE APPLICATION:

To keep your water sparkling clear, apply Super Water Clarifier weekly at a rate of 1 fl. oz. per 5,000 gallons of pool water. Operate pump and filter for at least 8 hours after application.

TO CLEAR CLOUDY WATER:

1. Check all pool equipment and make sure it is working properly. If necessary, backwash and/or clean filter according to manufacturer's directions, then go to step 2.
2. Add 1 fl. oz. of Super Water Clarifier for every 5,000* gallons of pool water directly to the pool around the perimeter. (For improved filter efficiency, pour a portion of the recommended dosage directly into the skimmer.)
3. Run the filter for 8 hours continuously, backwashing or cleaning filter if pressure rises significantly or water flow back to pool slows down significantly.

*If the pool water is extremely cloudy due to heavy usage, a warm weather start-up or is a freshly-filled pool, you may increase the dosage to 1 fl. oz. for every 2,500 gallons of water.

Note: Do not over treat. Overdosing can have the opposite effect, resulting in Super Water Clarifier performing the function of a dispersant rather than a flocculent.

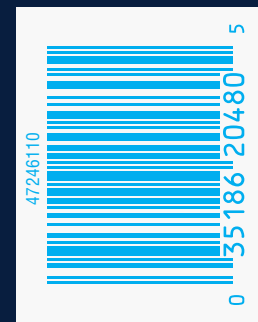

STORAGE AND DISPOSAL

Keep this product in original, tightly closed container when not in use. Do not store at temperatures below 40°F. Avoid contact with strong oxidizers. Use entire contents, then triple rinse and offer for recycling, or dispose in accordance with state and local regulations. Do not reuse container.
