

MiniMax[®] 100

High Performance Spa and Small Aboveground Pool Heater By Pentair Pool Products[®]

The small heater that gives you more

Why buy more heater than you need, when the MiniMax[®] 100 heater is sized specifically for your spa or small aboveground pool? The MiniMax 100 heater is a compact, self-contained unit with an output of 100,000 BTUs, perfect for heating spas and small aboveground pools of up to a 900-gallon capacity. Equipped with either a reliable direct-spark ignition or a standing pilot and Presslite[™] millivolt internal ignition, MiniMax 100 is easy to install and maintain.

The MiniMax 100 heater is the efficient and economical way to keep your spa or small pool at the optimum temperature for comfort.

- High thermal efficiency keeps operating costs low while directing more produced heat to your pool instead of into thin air.
- Patented thermostatic bypass valve minimizes condensation-related calcium scaling and corrosion, preserving heat transfer efficiency.
- Quiet, dependable operation from proven burner system.
- Service-friendly design includes bronze header system for long life and union connection fittings for fast draining and easy winterization.
